

Miniature Circuit Breaker 6000A

This miniature circuit breaker provides reliable performance at a competitive price. It is suitable for photovoltaic and wind power systems.

Product Overview

Versatile Electrical Protection

This miniature circuit breaker provides robust overload and short-circuit protection for residential, commercial, and industrial electrical systems. Engineered for reliability, it features a 6000A short-circuit breaking capacity and conforms to strict international IEC/EN safety standards. Its compact, modular design supports versatile installation options on standard 35mm DIN rails.

Electrical Ratings

Short Circuit Capacity

6000 A
Capacity

- 63

Rated Voltage

230/400V - 240/415V AC

Available Pole Configurations

1P, 1P+N, 2P, 3P, 3P+N, 4P

Technical Specifications

Tripping Characteristics

Curve Type	Range
B Type	3In ~ 5In
C Type	5In ~ 10In
D Type	10In ~ 20In

Mechanical Service Life	20000 Cycles
-------------------------	--------------

Electrical Service Life	4000 Cycles
-------------------------	-------------

Installation

Mounting Method	DIN rail EN 60715 (35mm)
-----------------	--------------------------

Tightening Torque	2.5 N.m
-------------------	---------

Environmental

Degree of Protection

IP20

Operating Temperature	-5°C to +40°C
