Product Overview

Reliable Circuit Protection

The DZ47-63 is a versatile miniature circuit breaker (MCB) engineered for robust overcurrent and short-circuit protection in residential and commercial electrical distribution systems. Designed to operate at 230/400V~ 50Hz, this device ensures safety and reliability in power transmission. It complies with GB10963.1 standards, making it a dependable choice for modern electrical infrastructure.

Technical Specifications

A detailed look at the DZ47-63 series specifications, highlighting the 4000A breaking capacity and compliance standards.

Rated Voltage	230/400V~
Rated Frequency	50 Hz
Rated Current Range	6-63A
Short-Circuit Breaking Capacity	4000 A

Compliance & Standards

Standards	GB10963.1
-----------	-----------

Key Features

Protection Features

Overcurrent Protection • Short-Circuit Protection

Common Applications

- Residential electrical systems
- Commercial electrical distribution
- Power transmission systems
