Product Overview

Robust Electrical Protection

The YCB6H-63 series miniature circuit breaker provides reliable overload and short-circuit protection for residential, non-residential, and infrastructure applications. Designed to ensure safety and stability in electrical systems, these devices are compatible with a range of inrush current requirements. With high-performance construction and adherence to international standards, it is an essential component for modern electrical distribution.

Technical Specifications

Instantaneous Release Types

- Type B (3-5) I_n
- Type C (5-10) I_n
- Type D (10-20) I_n

Rated Voltage	230/400V AC
Rated Frequency	50 Hz
Breaking Capacity	4500 A

Certifications

International Standards	IEC 60898-1, CE, CB, INMETRO
-------------------------	------------------------------

Installation

Mounting Method	DIN Rail
