

Mist and Duster Machine Sprayer

This versatile mist and duster machine sprayer is designed for efficient application of liquids and powders. Featuring a robust engine, a large-capacity tank, and an adjustable nozzle, the sprayer allows precise control of spray patterns.

Product Overview

Versatile Mist and Duster Sprayer

The 3WZ-7 is a professional-grade mist and duster machine sprayer designed for the efficient application of both liquid chemicals and powders. Engineered for agricultural and horticultural tasks, it combines a robust engine with a large-capacity tank to ensure uniform coverage and effective pest control. Its ergonomic design and adjustable nozzle provide the precision needed for demanding field applications.
