

Misting Pedestal Fan

This misting pedestal fan offers a powerful and adaptable cooling solution suitable for both indoor and outdoor settings. Equipped with a high-velocity motor, it delivers a refreshing mist, ensuring comfort in hot environments.

Overview

High-Performance Misting Cooling Solution

This misting pedestal fan is engineered to provide reliable cooling in both indoor and outdoor environments. Designed with a focus on durability and operational efficiency, it features a high-velocity motor and adjustable misting capabilities to suit various industrial or commercial needs. Its portable construction, complete with sturdy wheels and a telescopic handle, ensures easy mobility across workshops, patios, and event spaces.

Performance & Features

Cooling Features

- High-velocity motor
- Adjustable misting levels
- Multiple fan speed settings
