

Mobile Diesel Power Generator

This diesel generator provides reliable power for various applications. It is suitable for providing backup power, construction sites, and other locations where grid power is unavailable.

Product Overview

Reliable Mobile Power Solution

This mobile diesel power generator is engineered to provide dependable energy for a wide range of professional applications. Featuring a robust frame and integrated wheels, it offers excellent portability for construction sites, remote locations, and emergency backup power needs. The unit is equipped with a high-performance diesel engine and a comprehensive electrical control panel, ensuring versatile and safe power distribution wherever grid access is limited.

Technical Specifications

Suitable Applications

- Construction Sites
- Backup Power Supply
- Remote Operations

Fuel Type	Diesel
Mobility	Wheeled Chassis, Robust Frame

Control & Interface

Control Panel

Multiple Outlets • Electrical Controls
