Product Overview

Mobile Diesel Water Pump Solution

This mobile diesel water pump set is engineered for high-performance water transfer in demanding environments, providing a reliable alternative to electric-powered systems. Mounted on a durable, trailer-based chassis, the unit offers excellent portability for rapid deployment in irrigation, dewatering, and industrial applications. It features a robust diesel engine coupled with a high-performance pump, ensuring efficient operation even in locations without a stable power supply.

Technical Capabilities

Key Features

- Self-priming capability
- Trailer-mounted for mobility
- Pneumatic tires and support legs
- Protective canopy and frame
- Integrated fuel tank

Compatible Pump Types

Open pumps, Mixed flow pumps, Sand pumps, Mortar pumps

Applications

Suitable Applications

Irrigation • Dewatering • Industrial Pumping • Construction Sites • Emergency Water Removal
