

Mobile Glass Sheet Storage Rack

This heavy-duty mobile rack is designed for transporting and storing glass sheets. Constructed from robust steel with a blue finish, this rack features multiple vertical supports with black protective strips to prevent damage to the glass.

Product Overview

Heavy-Duty Glass Storage Solution

This mobile glass sheet storage rack is engineered for the safe transport and organized storage of delicate glass materials in demanding industrial environments. Constructed from robust steel with a durable blue finish, the rack features vertical supports lined with protective strips to prevent surface damage. Designed for versatility, it includes swivel casters for effortless maneuverability and integrated eyelets for secure lifting or tie-down, making it an essential asset for workshops, factories, and construction sites.

Technical Specifications

Safety & Protection

- Protective black strips on vertical supports
- Integrated eyelets for secure lifting
- Tie-down points

Material	Robust Steel
Finish	Blue
Mobility	Swivel Casters, Mobile

Usage & Application

Suitable Environments

Workshops • Factories • Construction Sites
