Product Overview

Industrial Material Handling Solution

This mobile inclined screw conveyor is engineered for the efficient transport of powders and dry granular materials. Constructed from durable stainless steel, it is perfectly suited for hygiene-critical environments such as the pharmaceutical, food, and chemical industries. Its mobile design, featuring casters and a robust geared motor, ensures maximum operational flexibility across diverse industrial settings.

Technical Specifications

Material	Stainless steel
Drive System	Geared motor
Mobility	Mobile frame, Casters, Wheeled base

Applications

Target Industries

- Pharmaceutical
- Food Processing
- Chemical

Compatible Materials

Powders • Granules • Bulk materials
