

Mobile Phone Parts and Accessories

This includes a variety of components and add-ons for mobile phones. These accessories and parts can enhance the functionality and extend the life of mobile devices.

Product Overview

Low-Entry City Bus

This 12-meter class city bus is designed with a focus on cleanliness, environmental protection, and humanized design. It features a single-step low floor, providing significant accessibility and convenience for all passengers, particularly the elderly and individuals with limited mobility. The vehicle is engineered for both economic efficiency and strong power performance to meet the demands of modern urban transit.
