

Mobile Seed Cleaning Truck

This compact truck is equipped with a seed cleaning machine for efficient agricultural operations. The seed cleaning machine is mounted on the flatbed, providing on-site seed processing capabilities.

Overview

Mobile Seed Cleaning Solution

This compact mobile seed cleaning truck is engineered for efficient on-site agricultural operations. Featuring a sturdy chassis and a mounted seed processing unit, it provides a versatile solution for small-scale farming and seed production. The design enables seamless transport and immediate field-side processing capabilities for optimized harvesting workflows.

Vehicle Specifications

Vehicle Configuration	Compact truck with flatbed
Equipment Mounting	Flatbed mounted

Operational Capabilities

Application Suitability

- Small-scale farming
- Seed production
- Field-side processing

Primary Function	Seed Cleaning, On-site Processing, Field Harvesting Support
