Product Overview

Modular Plastic Conveyor Belt

This modular plastic conveyor belt is engineered for demanding industrial environments, including automotive maintenance and food processing. It features a robust, interlocking construction that provides exceptional strength and load-bearing capacity of up to 1.2 tons per square meter. Designed for efficiency, this belt is maintenance-free, easy to clean, and resistant to chemicals and oils, ensuring long-lasting performance and reduced downtime.

Technical Specifications

Max Load Capacity

1.2 tons/sqm
Maximum Load

Model Type	HS-1800A
Pitch	63.5 mm
Thickness	25 mm
Minimum Width	200 mm
Open Area	0 %
Rod Diameter	10 mm
Working Temperature	-40°C to 260°C

Materials and Compliance

Regulatory Approvals

FDA • EU

Available Materials

PP, POM, PE, PA

Configuration

Available Colors

- White
- Blue
- Gray
- Nature
- Dark-brown

Sprocket Dimensions

Specification	Details
Sprocket Size	10T, 13T, 15T
Bore Type	Square & Round

Application

Industries Served

- Automotive
- Tire Manufacturing
- Food Processing (Meat, Poultry, Seafood, Bakery)
- Packaging
- Printing/Paper
- Postal
- Corrugated Cardboard
- Can Manufacturing
- Textile
