

Moisture-Proof LED Lamp

This moisture-proof LED lamp is designed for both indoor and outdoor use. It provides reliable illumination with a long lifespan and is suitable for damp or wet locations.

Overview

Durable Moisture-Proof LED Solution

This moisture-proof LED lamp is engineered for reliable performance in both indoor and outdoor environments where moisture and dust are concerns. Built with robust, corrosion-resistant materials and a sealed housing, it ensures long-lasting operation in damp or wet locations. Its versatile design and efficient LED technology make it an ideal choice for varied industrial and commercial lighting needs.

Technical Specifications

Product Type	Moisture-Proof LED Lamp
Durability Features	Moisture-proof, Dust-resistant, Corrosion-resistant, Sealed housing

Design & Versatility

Available Shapes

- Round
- Oval

Suitable Environments

Indoor • Outdoor • Damp Locations • Wet Locations

Performance

Key Performance Indicators

1 High Energy Efficiency	1 Long Lifespan
