

Momentary Foot Switch with North American Plug

This foot switch enables hands-free operation. It has a momentary push-button switch and a North American power plug.

Product Overview

Hands-Free Control Solution

The PBB-6 momentary foot switch provides a reliable and convenient solution for hands-free operation in various industrial and commercial environments. Constructed with a durable black plastic housing, this switch is designed to withstand daily use while maintaining a compact footprint. It comes pre-equipped with a standard North American power plug for quick and easy integration into existing setups.
