Product Overview

High-Performance Monochrome Toner

This premium monochrome laser toner cartridge is engineered for consistent, high-resolution document printing in both home and office environments. Designed for wide environmental adaptability, it maintains print quality across varying temperature and humidity conditions. With a focus on reliability and longevity, this cartridge supports high-volume printing needs while ensuring sharp text and clear image reproduction.

Technical Specifications

Page Yield	1500 pages
Print Color	Black
Model Number	W1110A
Certifications	ISO 9001, ISO 14001

Performance Features

Print Quality Metrics

9 scale Color Level Resolution	3 max Printing Cycles
--	---------------------------------

Performance Benefits

- High resolution output
- Firm fixing with low waste powder rate
- High blackness value
- Slow color attenuation
- High temperature and humidity resistance

Compatibility

Compatible Printer Models

Series	Models
Laser MFP	136a, 136W, 136nw, 138pn, 138pnw, 138p
Laser	108a, 108w
