

# Motion-Activated LED Floodlight

This LED floodlight includes a motion sensor for automatic activation. Designed for outdoor use, it provides bright and energy-efficient lighting.

## Product Overview

### High-Efficiency Security Lighting

This LED floodlight is engineered for reliable outdoor security and convenience, featuring an integrated motion sensor for automatic activation. Its durable housing and adjustable mounting bracket allow for flexible installation in various outdoor environments. By utilizing advanced LED technology, this unit provides bright, energy-efficient illumination while ensuring long-lasting performance and reduced power consumption.

## Key Features

### Features

- Integrated motion sensor for automatic activation
- Outdoor-rated durable housing
- Adjustable mounting bracket for flexible installation
- Energy-efficient LED technology

## Performance

### Efficiency Status

Energy Efficient • Long-lasting

### Application

Outdoor, Security, General Illumination
