

Motor Sports Car Exhaust Silencer with In-Line Tail Pipe

This exhaust silencer is designed for motor sports cars. It features an in-line tail pipe configuration.

Product Overview

High-Performance Exhaust Solution

This exhaust silencer is engineered specifically for motor sports applications, designed to optimize back-end exhaust flow. The in-line tail pipe configuration ensures efficient performance while maintaining the necessary silencing characteristics required for competitive driving. It is a robust component built to withstand the rigors of high-performance automotive environments.

Technical Details

Application	Motor Sports
Component Type	Exhaust Silencer, In-Line Tail Pipe
