

Motorcycle Drive Chain

This high-strength roller chain is designed for motorcycle drive systems. It features precision-engineered components and heat-treated alloy steel for optimal performance and durability.

Product Overview

High-Performance Drive Chain

This high-strength roller chain is precision-engineered for motorcycle drive systems, ensuring reliable power transmission. Constructed from premium alloy steel with heat-treated components, it offers exceptional wear resistance and durability. Designed to withstand rigorous conditions, this chain provides an extended service life for a wide range of motorcycle applications.

Technical Specifications

Key Features

- Precision-engineered rollers
- Reinforced side plates
- Heat-treated pins
- Wear-resistant design

Material	High-quality alloy steel
Application	Motorcycle Drive Systems, Power Transmission, General Motorcycle Maintenance
