

Motorcycle Drive Chain

This motorcycle drive chain is engineered for efficient power transmission. It is constructed from durable materials offering extended wear and resistance to corrosion.

Product Overview

High-Performance Motorcycle Drive Chain

This high-strength motorcycle drive chain is engineered for efficient power transmission and long-lasting durability. Constructed from premium materials including 45Mn steel plates and 30CrMnTi pins, the chain undergoes rigorous heat treatment to ensure resistance to wear and corrosion. Designed for smooth operation and reduced friction, it provides reliable performance across a wide range of motorcycle models.

Technical Specifications

Material Composition

Component	Material
Plate	45Mn
Pin	30CrMnTi
Roller	20#

Available Colors

Nature • Blue • Golden

Compatible Models

420, 420H, 428, 428H, 520, 520H, 530, 630

Product Features

Key Benefits

- High strength heat-treated construction
- Corrosion resistant materials
- Precision-engineered for smooth operation
- Reduced friction for efficient power transmission
- OEM customization available
