

Motorcycle Engine Oil Seal

This TC3Y oil seal is designed for motorcycle engines. It provides a reliable seal, preventing oil leakage and ensuring optimal engine performance and longevity.

Product Overview

High-Performance Engine Sealing Solution

The TC3Y oil seal is specifically engineered for high-demand motorcycle engine environments. It provides a robust barrier against oil leakage, ensuring internal pressure is maintained and contamination is excluded. Its durable construction allows for consistent performance under high thermal and mechanical stress, promoting overall engine longevity and reliability.

Product Details

Seal Type	TC3Y
Primary Application	Motorcycle Engines, Automotive Sealing

Key Features

Performance Attributes

- High-temperature resistance
- Pressure-resistant design
- Precision-fit engineering
- Optimized oil retention
