Product Overview

High-Performance Ignition Components

These high-performance spark plugs are engineered for motorcycle engines to ensure efficient combustion and improved engine performance. Designed for durability, they provide consistent ignition and optimal power delivery across various operating conditions. These components are compatible with a wide range of motorcycle models, helping to enhance fuel economy and reduce emissions.

Compatibility & Models

Cross-Reference Compatibility

- NGK
- DENSO
- CHAMPION
- BOSCH

Available Models

47TC, 08TC, E6T, D8TC, E6TC, A7TC, J8TC

Performance Features

Key Benefits

Improved Fuel Efficiency • Reduced Emissions • Consistent Ignition • Extended Lifespan
