

Motorcycle Front Shock Absorber

This motorcycle front shock absorber is engineered for reliable damping and enhanced control. Its robust construction ensures consistent performance and provides a smooth, stable ride.

Overview

Performance and Durability

The CD158 Front Shock Absorber is engineered for optimal performance and reliable damping across various driving conditions. Featuring a robust construction and high-quality seals, it is designed to prevent leakage and maintain consistent performance throughout its lifespan. The chrome finish adds both corrosion resistance and a professional aesthetic, while the direct-fit design ensures simplified installation for specific vehicle models.

Technical Details

Model ID	CD158
Surface Finish	Chrome
Key Features	Corrosion Resistant, Direct Fit, Leak Prevention Seals, Enhanced Stability

Maintenance

Maintenance Recommendations

- Regular visual inspection
- Periodic maintenance to ensure optimal performance
