

Motorcycle Headlight Fairing

This front headlight fairing features a sleek, aerodynamic design. Constructed from durable black plastic, the fairing includes a clear headlight lens for optimal visibility.

Overview

Aerodynamic Headlight Fairing

This motorcycle headlight fairing is engineered with a sleek, aerodynamic design to enhance both the visual appeal and performance of your motorcycle. Constructed from durable, high-quality black plastic, it is built to withstand road conditions while providing a robust housing for the integrated headlight. The inclusion of a clear lens ensures optimal light projection, contributing to improved rider safety and visibility during night or low-light riding conditions.

Technical Specifications

Model Identifier	TL128
Material	Durable Black Plastic

Compliance & Standards

Certifications	CCC
