

Motorcycle Roller Chain

This motorcycle roller chain ensures efficient power transmission. It is constructed from high-quality steel for strength and longevity, providing reliable performance.

Product Overview

High-Performance Motorcycle Roller Chain

This motorcycle roller chain is engineered for efficient power transmission and reliable performance under demanding riding conditions. Constructed from high-quality steel materials, it features precision-engineered rollers and side plates designed to withstand high tensile loads while reducing wear. It serves as an ideal replacement component to enhance overall motorcycle performance and safety.

Technical Specifications

Material Composition

Component	Material
Plate	45Mn
Pin	30CrMnTi
Roller	20#

Available Colors

Nature • Blue • Golden

Compatible Models

420, 420H, 428, 428H, 520, 520H, 530, 630

Features

Key Features

- High strength construction
- Heat treated for durability
- Precision-engineered components
- OEM service available
- Timely delivery
