

Motorcycle Starter Motor

This high-performance starter motor is designed for motorcycles. It features a robust construction with a metallic housing and a durable armature.

Product Overview

High-Performance Starter Motor

This high-performance starter motor is engineered for reliable starting power and long-lasting performance in demanding riding conditions. Featuring a robust metallic housing and a durable armature, it is designed to withstand the stresses of daily operation. This unit ensures efficient engine starting across various motorcycle models, making it a dependable choice for maintenance and repair needs.

Technical Specifications

Key Performance Features

- High-performance design
- Reliable starting power
- Engineered for demanding conditions
- Efficient engine engagement

Model Number	AM-SM-012
Construction Materials	Metallic Housing, Durable Armature
