

# Motorcycle Throttle Cable for CG125

Replacement throttle cable for CG125 motorcycles. This cable ensures smooth and reliable throttle response, providing optimal control for the rider.

## Product Overview

### Precision Throttle Control

This replacement throttle cable is specifically engineered for CG125 motorcycles, ensuring smooth and reliable throttle response. Constructed from high-quality, durable materials, it is designed to withstand daily wear while maintaining optimal control for the rider. The straightforward design allows for easy installation, making it an essential component for routine maintenance and performance restoration.
