

# MR16 LED Spotlight with SMD and COB Technology

This LED spotlight features both SMD (Surface Mount Device) and COB (Chip on Board) LED technology. It is ideal for accent lighting, display lighting, and general illumination.

## ADDITIONAL IMAGES

## Overview

### High-Efficiency MR16 LED Spotlight

This MR16 LED spotlight integrates advanced SMD and COB technology to deliver superior luminous efficacy and energy efficiency. Designed as a direct, high-performance replacement for traditional halogen lamps, it provides focused illumination perfect for accent, task, and general lighting in both residential and commercial environments. Its standard MR16 base and compact form factor ensure seamless installation into existing lighting fixtures.

## Technical Specifications

Input Voltage	12 V
Beam Angle	38 degrees
Color Temperature	3000K (Warm White)
Luminous Flux	400 lm
Lifespan	25000 hours
Dimmable	No
Base Type	MR16

## Construction & Compliance

Materials	Glass and Aluminum
Certifications	CE, RoHS

## Key Features

### LED Technologies

- SMD (Surface Mount Device)
- COB (Chip on Board)

### Ideal Applications

Accent Lighting • Display Lighting • Task Lighting • General Illumination
