

Multi-Bowl Stainless Steel Kitchen Sink with Drainboard

This stainless steel kitchen sink features a multi-functional design, including a large main sink, a smaller secondary sink, and a drainboard. Constructed from durable stainless steel, the sink is corrosion-resistant and easy to clean.

Product Overview

Professional Grade Kitchen Sink

This multi-functional stainless steel kitchen sink is designed for efficiency in both residential and commercial environments. It features a spacious main basin paired with a secondary rinsing sink and an integrated drainboard, providing a comprehensive solution for dishwashing and food preparation. Constructed from high-quality, corrosion-resistant stainless steel, this unit ensures durability and easy maintenance for professional kitchens.
