

Multi-Port USB Hub

This compact USB hub expands connectivity options. It allows for the simultaneous connection of multiple USB devices to a single USB port on a computer or laptop.

Product Overview

High-Performance Connectivity Solution

This multi-port USB hub is designed to enhance productivity by expanding a single computer port into four high-speed USB 3.0 connections. Engineered with a reliable chipset, it ensures stable and fast data transfer speeds for peripherals such as flash drives, mice, and keyboards. The compact and user-friendly design requires no driver installation, making it an ideal choice for both professional desktop environments and mobile workspaces.

Technical Specifications

Maximum Data Rate

5 GB/s

Transfer Speed

Interface	4x USB 3.0, Backward compatible with USB 2.0
Chipset	GL3520

Compatibility

Operating Systems

- Windows XP
- Windows Vista
- Windows 7
- Mac OS 9.1 or above

Physical Characteristics

Casing Material	Shinning plastic
-----------------	------------------

Included Accessories

In the Box

- Power adapter
- USB cable
