

Multifunction LED Spotlight with Stand

This multifunction spotlight features a high-intensity LED main beam and a wide-angle LED side panel. It also includes a built-in stand for hands-free use and multiple light modes.

Product Overview

Versatile Illumination Solution

This multifunction LED spotlight is designed for professional and outdoor use, offering both long-range spotlighting and wide-area lantern illumination. Equipped with a reliable rechargeable battery system, it provides consistent performance for extended tasks. The inclusion of an integrated stand and ergonomic handle ensures hands-free operation and ease of transport in any environment.
