

# Multifunction Machine Power Part

The multifunction machine power part is a versatile and robust component suitable for agricultural and industrial applications. It delivers reliable performance for tasks like tilling, plowing, and cultivating.

## Product Overview

### Versatile Power Unit for Agricultural Operations

This multifunction machine power part is engineered for reliable performance in demanding agricultural and industrial environments. Featuring a robust 420cc 4-stroke engine, it provides consistent power for tilling, plowing, and cultivation tasks. The unit is designed for operator comfort with an adjustable handle system and integrated steering brakes for precise maneuverability.

## Engine Performance

### Key Performance Metrics

**15 HP**

Max Output

**420 CC**

Displacement

**990 rpm**

PTO Speed

### Fluid Capacities

Fluid Type	Capacity	Unit
Fuel Tank	6	L
Engine Oil	1.1	L

Engine Type	Single Cylinder, Air-Cooled OHV, 4-Stroke, Horizontal
-------------	---

## Transmission & Control

Transmission Configuration	Gear Transmission (3 Forward + 3 Reverse)
Control Features	Adjustable Handle (Height & Sideways), Differential Mechanism, Steering Brake

## Chassis & Build

### Chassis Specifications

- Gear Box Material: AL-ALLOY
- Clutch Type: Dry Clutch
- Axle Diameter: 25mm
- Tire Size: 5.00-10 (500mm)

## Logistics

### Dimensions & Weight

**95 Kg**

Net Weight

**110 cm**

Length

**65 cm**

Width

**85 cm**

Height

### Container Load Capacity

Container Type	Quantity
20GP	36
40GP	72
40HQ	108
