Product Overview

Multifunction Power Tiller SDYFAI

The SDYFAI is a versatile 2020 model multifunction power tiller designed for efficient soil preparation in agricultural settings. Engineered for durability and ease of use, it features a robust air-cooled diesel engine and a direct-connect blade system. This machine is suitable for various tasks, including tilling, ditching, and hilling, making it an essential tool for small to medium-sized farming operations.

Engine Specifications

Rated Power

5.2 kW

Rated Power

7 HP

Rated Power

Engine Model	Kama178F
Engine Type	Air cooled direct Injection diesel engine
Rotation Speed	3600 rpm
Fuel Tank Capacity	5.5 L

Tilling Performance

Minimum Tillage Depth	8 cm
Tilling Width	97 cm
Rotary Blade Quantity	18

Ditching Capabilities

Ditching Performance

Metric	Value
Trench Depth	10-18 cm
Opener Width	24 cm
Operating Speed	> 1 m/s

Physical Dimensions

Machine Weight	33 kg
Total Build Weight	115 kg
