

Multifunction Vegetable Cutting Machine

This multifunction vegetable cutter is suitable for processing various vegetables, including cabbage, carrot, potato, pepper, chili, cucumber, bitter gourd, scallion, and leek. It can slice, shred, and dice these vegetables.

Product Overview

Professional Multifunction Vegetable Cutter

This high-efficiency vegetable cutting machine is designed for commercial catering environments, offering versatile capabilities including slicing, shredding, and dicing. Constructed with durable aluminum alloy and SUS304 stainless steel, it features a 360-degree double-blade cutting system that minimizes wear and enhances longevity. With a compact footprint and automatic knife grinding functionality, it is an essential tool for boosting prep efficiency in professional kitchens.

Technical Specifications

Model	FDHT-230
Dimensions	440 x 310 x 440 mm
Weight	32 kg

Performance

Hourly Capacity

60 kg/h

Max Throughput

Adjustable Thickness	1-10 mm
Compatible Produce	Cabbage, Carrot, Potato, Pepper, Chili, Cucumber, Bitter Gourd, Scallion, Leek

Power Requirements

Electrical Input	220V / 50Hz
Power Consumption	195 W
