

Multifunctional Car Emergency Escape Tool

This multi-functional tool combines a safety hammer for breaking windows with a seatbelt cutter for swift exits. It also features an LED flashlight and beacon light for signaling during roadside emergencies.

Product Overview

Essential Emergency Preparedness

The TB-8020R is a versatile, multi-functional emergency tool designed for rapid response in vehicle-related incidents. Combining a safety hammer for glass breaking, a seatbelt cutter, and a high-visibility LED lighting system, this compact device ensures you are prepared for critical situations. Its durable construction and reliable battery-powered operation make it an essential addition to any vehicle's safety kit.
