

# Multimedia Speaker System with Subwoofer

This multimedia speaker system features a subwoofer and two satellite speakers. It is compatible with various audio sources via a standard 3.5mm audio input.

## Product Overview

### Multimedia Audio Experience

This 2.1 multimedia speaker system delivers a balanced audio profile featuring a dedicated subwoofer and two compact satellite speakers. Designed for versatility, it connects seamlessly to computers and various audio devices via a 3.5mm stereo interface. With intuitive controls for volume, bass, and treble, users can easily tailor the sound output to suit music, gaming, or movie applications.

## Technical Specifications

### Peak Power Output

**40 W**

Total System Peak Power

### Component Configuration

| Component          | Size   | Power Output |
|--------------------|--------|--------------|
| Subwoofer          | 5-inch | 20           |
| Satellite Speakers | 3-inch | 10           |

### Impedance Ratings

- Input Impedance: 10KOhm
- Subwoofer Impedance: 4Ohm
- Satellite Speaker Impedance: 4Ohm

## Physical Dimensions

### Physical Dimensions

| Unit              | Dimensions (W x H x D) |
|-------------------|------------------------|
| Subwoofer         | 140 x 260 x 275 mm     |
| Satellite Speaker | 95 x 185 x 120 mm      |

## Compatibility and Power

|              |   |
|--------------|---|
| Connectivity | 3.5mm stereo plug, Active type, 2.1 Channel |
| Power Input  | AC220V ~ 50Hz / 230mA                       |

## Commercial Details

|                        |          |
|------------------------|----------|
| Minimum Order Quantity | 40       |
| Unit Price             | 265 yuan |
