

Ni-MH Rechargeable Battery Pack 6.0V 2000mAh

This rechargeable Nickel-Metal Hydride (Ni-MH) battery pack has a capacity of 2000mAh and a voltage of 6.0V. It is designed for various electronic devices requiring a reliable power source.

Overview

High-Performance Power Solution

This 6.0V Nickel-Metal Hydride (Ni-MH) rechargeable battery pack offers a robust capacity of 2000mAh, making it a reliable power source for various electronic devices. Engineered for high energy density and an extended cycle life, it ensures consistent performance for demanding applications. The pack comes equipped with a standard connector featuring red and black wiring for clear polarity identification.
