

Ni-MH/Ni-CD Battery Charger

Intelligent battery charger designed for Ni-MH and Ni-CD rechargeable batteries. Features include multiple charging slots for simultaneous charging of various battery sizes and safety mechanisms to prevent overcharging and overheating.

Overview

Intelligent Charging Solution

This intelligent battery charger is designed to support both Ni-MH and Ni-CD rechargeable batteries efficiently. Featuring multiple charging slots, it allows for the simultaneous charging of various battery sizes, making it a versatile tool for both home and professional environments. Advanced safety mechanisms are integrated to prevent overcharging and overheating, ensuring optimal battery longevity and safe operation during every cycle.

Technical Specifications

Safety Protections

Overcharge Protection • Overheat Protection

Compatible Battery Types	Ni-MH, Ni-CD
Charging Slots	4 slots
Application	Home and Professional
