

NiCd NiMh Battery Charger

This plug-in charger is designed for charging NiCd and NiMh batteries. It supports AA, AAA, and other battery sizes and is intended for indoor use.

Product Overview

Reliable Battery Charging Solution

This plug-in battery charger is designed to efficiently charge both NiCd and NiMh batteries, making it a versatile tool for various power needs. It is compatible with common battery sizes including AA and AAA, ensuring broad utility for professional or personal use. With a straightforward 5-hour charging cycle, it provides a dependable and consistent power replenishment solution for your devices.

Technical Specifications

Usage Environment

Indoor Use Only

Model Number	LLD506
