Product Overview

Professional Waterproof Protection

This nitrile full-dip glove is engineered for demanding environments requiring superior liquid resistance and grip. Featuring a 13-gauge polyester liner, it balances dexterity with robust mechanical protection. The full nitrile coating provides an impermeable barrier against water, oils, and chemicals, making it an essential tool for wet-work and heavy-duty handling tasks.

Technical Specifications

Liner Material	13 Gauge Polyester
Coating Type	Full Nitrile Dip
EN388:2016 Performance Level	3121X
Cuff Design	Knitted Wrist

Applications

Recommended Applications	Small Parts Handling, Seafood Handling, Wet Environments, Oilfield Operations, Heavy Equipment Operation, Construction, Automotive, General Maintenance
--------------------------	---

Key Features

Key Performance Indicators

3 Level Abrasion Resistance	1 Level Cut Resistance	2 Level Tear Resistance	1 Level Puncture Resistance
