

Non-Sparking Brass Scoop, 180mm

This non-sparking scoop prevents sparks when striking or rubbing against other objects in potentially explosive atmospheres. It is commonly used in industries such as petroleum, chemical processing, power generation, and mining.

Product Overview

Safety-First Handling Solution

This non-sparking brass scoop is engineered for safe material handling in hazardous environments where flammable vapors or explosive materials are present. By utilizing specialized non-sparking alloys, it effectively eliminates the risk of ignition during strikes or friction. It is an essential tool for professionals working in the petroleum, chemical, power generation, and mining industries.

Physical Specifications

Scoop Width	180 mm
Material	Brass

Safety & Compliance

Certifications

ISO9001 • UKAS

Safety Features

Non-Sparking, Explosion-Proof

Application Areas

Suitable Industries

- Petroleum Industry
- Chemical Industry
- Power Generation
- Railroad
- Mining
