

Nylon Cable Ties

Cable ties are versatile fasteners for bundling and securing items. Featuring a flexible strap with a self-locking head, they provide a secure and permanent hold.

Product Overview

Professional Grade Nylon Fasteners

These versatile cable ties are engineered for reliable bundling and secure fastening in professional applications. Manufactured from durable Polyamide 6.6, they offer excellent resistance to oils, greases, and chloride solvents, ensuring performance in demanding environments. With UL, TUV, and DNV-GL certifications, these ties meet the highest international safety and quality standards for electrical and industrial use.

Technical Specifications

Flammability Rating	UL 94 - V2
Humidity Absorption	2.7 %

Operating Conditions

Operating Temperature Range

-40 C Min Operating	85 C Max Operating
-------------------------------	------------------------------

Max Short-term Temperature	110 C
----------------------------	-------

Material & Compliance

Regulatory Compliance

UL E258930 • TUV • DNV-GL • REACH • ROHS • PAHS

Materials Used	Polyamide 6.6, Carbon Black, Colorant
----------------	---------------------------------------

Chemical Resistance

Chemical Resistance Overview

Substance Category	Resistance Level
Bases, Oils, Greases	Good
Chloride Solvents	Good
Acids	Limited
Phenols	Not resistant
