

O-Ring Assortment Kit

This kit features a variety of o-rings and sealing rings made from materials like rubber, silicone, and PTFE. The precision-engineered rings come in different colors and sizes, providing a tight seal for diverse applications.

Product Overview

Comprehensive Sealing Solution

This O-Ring Assortment Kit offers a versatile selection of precision-engineered sealing rings, catering to diverse maintenance and repair needs. Designed for reliability, these rings effectively prevent leakage in plumbing, hydraulics, pneumatics, and automotive systems. The assortment includes various materials and sizes, ensuring you have the right seal for every mechanical requirement.

Technical Specifications

Applications

- Plumbing
- Hydraulics
- Pneumatics
- Automotive

Materials

Rubber, Silicone, PTFE

Performance Features

Key Performance Indicators

1 High

Chemical Resistance

1 High

Temperature Resistance

1 High

Wear Resistance
