Overview

Efficient Space Heating Solution

This oil-filled radiator heater is engineered for consistent and reliable warmth in residential or office environments. Featuring a 7-fin design, it maximizes surface area for enhanced heat radiation and efficient energy use. With adjustable thermostat controls and a triple overheat protection system, this unit balances performance with essential safety standards.

Technical Specifications

Voltage	220-240V
Frequency	50/60Hz
Number of Fins	7
Heating Settings	3

Features & Safety

Usability

- Adjustable thermostat control
- Large handle for easy movement
- Easy to clean surface
- Fast heat radiation

Safety Systems

Triple Overheat Protection, Pressure Tested, Indicator Lights
