

Oscillating Table Fan with Mesh Grill

This table fan provides a refreshing breeze in any indoor environment. It features horizontal oscillation and a protective mesh grill.

Overview

Compact Cooling Solution

This white table fan is designed to provide efficient and consistent air circulation for indoor workspaces and personal environments. Featuring a robust circular mesh grill and a three-blade architecture, it combines safety with effective airflow. With integrated horizontal oscillation and a user-friendly base control panel, this unit is an ideal cooling solution for offices or homes.
