

Outdoor Balcony/Eave TV Antenna

This flat panel array antenna is designed to be strongly directional, improving reception quality. It can be adjusted to different angles and mounted on walls, masts, or railings, making it suitable for small apartments, attics, and balconies.

Product Overview

Compact Outdoor Reception Solution

This outdoor antenna is a versatile, flat-panel array designed specifically for eave, balcony, or wall mounting, making it an ideal choice for apartments and small spaces. Engineered with weather-resistant, UV-protected housing, it ensures durability in various outdoor conditions while delivering high-quality Full HD and digital TV signal reception. The unit features a built-in wide-band amplifier and 360-degree orientation capabilities, providing reliable performance for both VHF and UHF signals.

Technical Performance

Frequency Range

174 MHz

VHF Min

230 MHz

VHF Max

470 MHz

UHF Min

862 MHz

UHF Max

VSWR Performance

Band	Max VSWR
VHF	<3.0
UHF	<2.6

Output Level: 110 dBuV

Noise Figure: <4.0dB

Impedance: 75 Ω

Installation & Features

Durability

Weather Resistant • Waterproof • Anti-Rust • UV Protected

Mounting Options: Wall, Mast, Railing, Balcony

Power Requirements

Power Sources

- Digital receiver
- Included AC/DC adaptor

Working Voltage: DC 5V/550mA

In the Box

Package Contents

- Coaxial cable
- Power supply
- Power adaptor
- Mounting kit
- Multi-directional base
