Product Overview

High-Performance Outdoor Connectivity

This outdoor CAT5e copper cable is engineered for reliable data transmission in demanding environments. Featuring a weather-resistant PE jacket, it provides essential protection against moisture, UV radiation, and extreme temperatures. With 4-pair solid bare copper construction, it ensures stable signal integrity for outdoor networking, security systems, and extended cable runs.

Technical Specifications

Cable Type	CAT5e
Conductor Material	Bare Copper
Conductor Gauge	24 AWG
Cable Construction	4 Pair Twisted

Physical Properties

Jacket Material	PE (Polyethylene)
Insulation Material	PE (Polyethylene)
Color	Black

Application & Features

Compatible Applications

- Ethernet / Fast Ethernet / Gigabit Ethernet
- Outdoor Networking
- Security Systems
- Data Communication
- Telecommunications

Key Features

Weather Resistant, UV Protected, PoE Support, Outdoor Rated, Solid Conductor
