

Outdoor Digital TV Antenna

This outdoor television antenna is designed for optimal reception of digital and analog TV signals. It features a multi-element array for enhanced signal gain and directionality.

Overview

High-Performance Reception Solution

This outdoor digital television antenna is engineered for optimal signal reception across both digital and analog TV broadcasts. Featuring a multi-element array, it delivers enhanced signal gain and superior directionality, ensuring clear reception even in areas with weak or distant signals. Constructed with durable, weather-resistant materials, it is built to withstand harsh outdoor environments while maintaining long-term reliability.

Technical Specifications

Design Features

- Multi-element array design
- Enhanced signal gain
- High directionality
- Weather-resistant construction

Signal Compatibility

Digital TV, Analog TV, VHF, UHF

Installation

Mounting Hardware

Yes

Installation Notes

Includes mounting hardware for easy installation on a mast or other suitable support structure.
