

Outdoor Eave/Balcony TV Antenna

This outdoor antenna is designed for eave or balcony mounting, providing a versatile solution for receiving over-the-air television signals. Its compact design and adjustable mounting hardware allow for easy installation in various locations.

Product Overview

High-Performance Outdoor TV Reception

This flat panel array antenna is engineered for versatile outdoor installation, making it an ideal solution for balconies, eaves, or attic mounting. It features a highly directional design to optimize signal reception for both VHF and UHF frequencies, ensuring clear Full HD and digital TV broadcasts. Built with weather-resistant, UV-protected, and anti-rust materials, this unit is designed to withstand harsh outdoor conditions while maintaining stable performance.

Key Features

Installation Features

- Adjustable mounting angles
- Wall, mast, or railing mountable
- Includes outdoor mounting kit
- Tool-free adjustment
- Weather-resistant and waterproof housing
- UV protected and anti-rust
