

Outdoor High-Intensity LED Floodlight

This high-intensity floodlight is designed for outdoor use. It features a robust construction and an IP65 protection rating, ensuring resistance to dust and water ingress.

Product Overview

High-Intensity Outdoor Illumination

This high-intensity LED floodlight is engineered for demanding outdoor environments, offering robust construction and reliable performance. With an IP65 protection rating, it effectively resists dust and water ingress, making it suitable for challenging weather conditions. Designed for versatility, this fixture is an ideal solution for illuminating large areas such as construction sites, parking lots, and security perimeters.

Technical Specifications

Protection Rating

IP65

Cable Length

1 m

Features

Key Features

- Robust construction for outdoor durability
- Reflective housing for maximized light output
- Durable mounting bracket for secure installation
- Dust and water resistant

Applications

Suitable Applications

Construction Sites, Parking Lots, Security Perimeters
