Product Overview

Solar-Powered Outdoor Illumination

This high-performance solar floodlight provides a sustainable outdoor lighting solution with zero electricity costs. Utilizing advanced monocrystalline silicon technology, the panel ensures efficient charging even in various weather conditions, supporting operation through rainy days. The system includes a remote controller for effortless brightness and timer adjustments, housed in a durable die-cast aluminum frame.

Core Metrics

5 m

Cable Length

3 days

Rainy Day Autonomy

Model Specifications

Model	Rating
LC-L503A	60W
Standard	20W

Durability and Protection	IP65 Rated, Die-casting Aluminium, Weather-resistant
Battery Technology	Ternary polymer lithium battery
